of Middletown.

THE OCEAN POSTAGE BILL.—The bill from the House of Representatives providing for a reduction of the rates of postage, has been so materially altered in the Senate, with regard to the rates of postage on letters and newspapers, that we have had prepared a statement of the substance of these provisions as they stand in the bill as amended by the Senate. With regard to letter postage, the Senate bill provides, that from and after June 30, 1881, in lieu of the rates of postage now established by law, there shall be charged the following rates, to wit: For every single letter in manuscript, or paper of any kind upon which information shall be asked, &c., conveyed in the mail, for any distance between places in the United States not exceeding 3,000 miles, three cents when the postage shall have been pre-paid; and for any distance exceeding 3,000 miles, double those rates; for every such single letter, when conveyed wholly or in part by sea, and to and from a foreign country, for any distance over 2,000 miles, twenty cents; and for any distance under 2,500 miles, ten cents. A single letter is one not exceeding half an ounce; double and treble letters pay double and treble these rates.

The rates of postage on newspapers may be stated thus:—All newspapers, not exceeding three ounces in weight, sent to actual subscribers from the office of publication, shall be charged as follows: Weekly papers within the county where published, free; for any distance not exceeding fifty miles out of the county where published, five cents per quarter; exceeding fifty and not more than three hundred miles, ten cents per quarter; over three hundred and not exceeding one thousand miles, fifteen cents per quarter; over one thousand and not exceeding two thousand miles, twenty cents per quarter; over two thousand and not exceeding four thousand miles, twenty-five cents per quarter; and for any greater distance, thirty cents per quarter; semi-weekly papers to pay double, tri-weekly trible, and papers issued oftener than tri-weekly, five times these rates.

For any other book, paper, magazine, &c., not exceeding one ounce in weight, there shall be paid for a distance not exceeding 500 miles, one cent.

Over 500 and not exceeding 1,500 miles, 2 cents; over 1,500 and not exceeding 2,500 miles, 3 cents; over 2,500 and not exceeding 3,500 miles, 4 cents; over 3,500 and not exceeding 4,500 miles, 5 cents.

For each additional ounce or fraction the rates are proportionately increased. — *Washington Republic.*

Besides the \$3 per diem, the members of Congress from California receive \$3,432 for mileage, the distance being put down at 4290 miles. The Texas members receive \$2,400 for 3000 miles, and Louisiana \$2,100 for 2050 miles. These are the amounts certified to by the committee on mileage in the House.

MORRILL'S STEEL POLISH.—This is a preparation for polishing Stoves, Grates, Fire Frames, &c. It is entirely free from any ingredient which will rust the article polished, and no dust is made in the application. A beautiful lustre is produced with half the usual labor, and retains its polish much longer, as no degree of heat can melt it; the roll, if heated hot, will not melt. No smoke or disagreeable smell will be caused by heating the stove after polishing. Give it one trial, and you will never use any other stove polish. Messrs. Newton Brothers are sole agents for this town, where the polish may be had, at wholesale and retail.

New Invention.—James Cunningham, of Reading, Pa., has patented a "Dust Arrestor," for the purpose of preventing dust from entering the windows of railroad cars. All who have travelled in railroad cars are aware how disagreeable it is to be sitting at a window with the dust driving into the face. This contrivance is to prevent that. A fan is placed in the top of the car, which revolves by a gearing attached to the forward axle—from this fan a pipe passes around the top of the car, which connects with other pipes passing through the top down by the side of each window on the inside of the car. The passenger, if dust begins to drive into the window, only has to open one of these pipes and a strong current of air passes out of the window, driving the dust away.

MECHANICAL INGENUITY.—Mr. O'Neil, of Baltimore, has made a most singular, as well as valuable invention, in the shape of an invalid domestic chair. It is so contrived as to be thrown into any position for the occupant, and then again, by the simplest arrangement, you have two ottomans, writing desk, table, lounge and settee, which are ornaments to any room. The back of this singular piece of mechanism, as well as the parts designed to rest the legs, arms and head, may be raised or lowered, to suit any emergency, and indeed may be contrived for any possible attitude or position, thus supplying what has long been wanting for the sick room.

NEW JERSEY LEGISLATURE.—In the House on Tuesday, was reported, on the petition of the Seventh-day Baptist, a supplement to the act to prevent vice and immorality. It provides that no writ, process or execution shall be issued, except in criminal cases and for breach of the peace, on the seventh day of the week upon the persons who observe that day as their Sabbath. And such writ or process so served is to be void and ineffectual, and the person who procured it, &c., to be served, is to be liable to suit from the party aggrieved. It also provides for the repeal of the sections of the old act, so far as they relate to the persons above named, which make labor an amusement on the Sabbath liable to fine, &c.

THE MONSTER GLOBE.—A late English paper states that Mr. Wyld has secured Leicester square for the exhibition of his monster globe during the

month of this anniversary is given: "The interior of the globe will be upwards of 60 feet in diameter, and the whole surface of the earth modeled with the greatest possible accuracy, embracing all the latest discoveries, upon a scale of ten miles to the inch horizontal, and one inch to the mile vertical; every mountain, river and lake will be laid down in a way that each visitor to this highly interesting and scientific exhibition may become in an hour an entire cosmopolite. The details of the manufacture of this giant specimen of individual enterprise display an accuracy and care with which on inspection we are greatly interested. The first process is to lay down the projections done by the most experienced hydrographers. These are then traced upon blocks of clay, between 2 and 3 feet square. The modeler then sets to work and puts in the various elevations, ridges of mountains, lakes, rivers, oceans, and islands, shaping them into the picturesque forms which the great artist, Nature, has given to them. From this a mould is taken, and then a cast. This cast is corrected by Mr. Wyld himself, and if knolls requires elevation, and valleys depressing, they are made perfect again. From this another mould is taken, from which the finished cast to be built in the globe will be taken, and when there, to be colored in accordance with the varied character which the earth's surface presents. Some idea may be formed of the extent of the undertaking when the reader is informed that 6000 blocks of the size named will be required to complete it. We have no hesitation in saying, that no object produced at the forthcoming exhibition will contain more matter of solid interest and information than the great globe itself."

Jacob Slingerland, of Royalton, Vt., has been held to bail at Montpelier in \$3000 for procuring pensions by false and forged certificates. It has been ascertained that he has procured more than \$20,000 from the department at Washington by fraud. He is an old attorney, who had been in the pension business in New York before removing to Vermont.

Expressive.—A gentleman just returned from San Francisco, says that he would rather be hanged in New York than die a natural death in California.

BY TELEGRAPH.

CONGRESS.

WASHINGTON, Feb. 26.

Senate.—The question pending was on Mr. Jones' amendment, giving Magistrates and Receivers compensation to be paid by Government, for locating these warrants, and also for locating warrants issued to the soldiers of the Mexican war. The amendment was adopted.

Mr. Walker offered an amendment that scrip be substituted in place of land warrants. This amendment was rejected; and after some further debate the joint resolution was ordered to be engrossed.

The Civil and Diplomatic bill was next taken up, as amended. The provision directing that the mileage of members of Congress shall be computed by the nearest mail route was stricken out. Provisions appropriating \$75,000 for a custom house and post-office at Pittsburgh, and \$75,000 for the same at Louisville, were also stricken out.

House.—Mr. McWille, from the Committee on Printing, reported a bill for the relief of Thos. Ritchie, on account of losses sustained in executing the Congressional printing. He had ascertained that he was loser to a great amount, and performed his contract faithfully on an average.

Mr. Wilcox, of Pa., moved to lay the subject on the table. Disagreed to—yeas 91, nays 111.

The first resolution, which relieves Mr. Ritchie from the terms of his contract, and in lieu gives him one half the prices fixed by the law of 1819, was ordered to be engrossed for a 3d reading by three majority.

Mr. Julian made an ineffectual endeavor to introduce a resolution, appointing a committee to investigate the charges made by Mr. Allen against the Secretary of State.

The army bill was next considered and passed, when the House took a recess.

Evening Session.—The Senate bill, appropriating 10,000,000 acres of the public lands for distribution among the States, &c., for the indigent insane, was debated at great length, without coming to a conclusion, when at 10 o'clock the House went into committee of the whole on the Navy Appropriation Bill.

Mr. Mead spoke in favor of increasing the number of mail steamers.

Mr. Julian moved to suspend the rules to introduce his resolution for the appointment of a committee to inquire into the charges against Mr. Webster by Mr. Allen, pending which, the House

St. Louis, Feb. 26.
On Sunday, a ferry boat here burst her harbor boiler, wrecking the fore part of the cabin. The mangled bodies of men and dead horses &c., were strewn around. Fifteen persons were killed, and as many have been severely scalped or maimed.

Attack by Indians and loss of life.—Information from Council Grove state that the Pawnees attacked the Government Station, and killed several persons. A company of dragoons have been dispatched from Fort Leavenworth to assist in repelling them.

LOUISVILLE, Feb. 27th.
A terrible tornado nearly destroyed the town of Fayetteville, Tennessee, on the 24th inst. Several lives were lost, and many persons seriously injured. The wind blew a perfect hurricane, amidst which could be heard the screams of women and children, the falling of houses and the crumbling of walls, mingled with peals of thunder. The air was alive with electricity. Rain subsequently fell in torrents, and impenetrable darkness prevailed. The tornado came from the South West.

NASHVILLE, Feb. 26.
The Democratic Convention, which met here yesterday, resolved that they would abide by the compromise measures of the last session of Congress, provided the North done the same, but should the North evade the compromise or repeal the same, abolish slavery in the District of Columbia, or refuse to admit new States because they were Slave States, they would adopt such measures of defence and redress as the honor and safety of the South would require.

JUDGMENT.—Let it never be forgotten that there is scarcely a single moral action of a single moral man, of which other men can have such a knowledge in its ultimate grounds, its surrounding incidents, and the real determining causes of its merits, as to warrant their pronouncing a conclusive judgement upon it. — *Quarterly Review.*

Industrious People.—The young lady who reads romances in bed, the friend who is always engaged when you call, and the correspondent who cannot find time to answer your letters.

THE AGE OF PROGRESS.

Barely this present age doth seem
The Age of Progress and of Science,
Of Telegraphs and Railroad trains,
Of pondering minds and peering brains,
Of active hands and steady arms,
Of business hearts 'mid all alarms,
Of Enterprise, who o'er the world
Hath wide her banner fair unfurled;
Of Science, too, whose hundred eyes
Seek the best path to mount the skies,
Flies Phosphor new and Comets bright,
Questions each little ray of light,
Whence it hath come? where hath it been?
What fields explored? what rights 't hath seen?
Lamentation with ceaseless plod,
O'er the wide world her way hath trod,
World's Fairs, and new Fresh water Gas,
Of some gear—all that class;
Utricity is now the word,
Nor hard nor poet now is heard,
Well, be it so, since so it must,
Roll onward in your clouds of dust,
But as ye roll—beware—beware—
Push not your progress on too far,
Lest future ages gaze here,
With pity view your vain career.

Farming in California.—At San Jose, California, last year, John M. Horner raised, on 150 acres, potatoes, onions, cabbages and pumpkins, which he sold for \$211,800. His onions brought 40 cents a pound, cabbages 40 cents a head. He intends to cultivate 800 acres this year. He has imported ten miles of iron fence, which cost, delivered, \$10,000.

BRIGHTON MARKET, Feb. 27.
At market 700 Beef Cattle, no stores, 5 pairs Working Oxen, 37 Cows and Calves, 1500 Sheep and Lambs, and 850 Swine.
Prices.—Beef Cattle—Extra \$6 25; 1st quality \$5 75; 2d do \$5 50; 3d do \$4 50.
Working Oxen—\$8 50, 90, 100.
Cows and Calves—\$17, 18, 25, 28, 32, 35.
Sheep and Lambs—\$2 25. Cows extra lot 20 sold at \$6 50 each.
Swine—\$6 50, retail 6 75.
REMARKS.—We do not to-day at market a pair of extra cattle, fattened by Col. W. H. Orin, from Western New York, was said to be the best ever at market here. Weight of the pair 9000 lbs.

MARRIED.

In Providence, 20th Mr. John T. Lawton of Newport, to Miss S. Augusta Miller of Warwick.

DIED.

In this town on Sunday morning, Mrs. Peace Irish, in the 79th year of her age.
Funeral on Tuesday afternoon, at 2 o'clock, from the residence of Albert Irish, Spruce Street. Relatives and friends are invited to attend without further notice.

In Warren 16th inst., after a few days' illness, Mr. Jonathan Luther, aged 83 years.

Marine Intelligence.

HENRY L. DAGGETT,

No. 29 Kilby Street, opposite Central Street, Boston.

Feb. 27, 28.

W. HAKER'S

PLAIN SWEET, EAGLE, FRENCH, AND

VANILLA CHOCOLATES, COCOA,

BROMA, COCOA PASTE, STICKS, &c.

PRO Merchants and Consumers who would purchase the best products of Cocoa—free from adulteration—more nutritious and healthful than tea or coffee—and in quality unsurpassed—the subscriber recommends the above articles, manufactured by himself, and stamped with his name and residence. His Broma and Cocoa Paste as delicate palatable—and salutary drinks for invalids, convalescents, children, travelers, and others, are pronounced by the most eminent physicians superior to any other preparations. His French and Vanilla Chocolates are warranted equal in delicacy and flavor to the best of Paris manufacture, and at one-half their price. In consequence of the great adulteration in almost all the Cocoa and Chocolate preparations now offered in the market, in order to cheapen them, the subscriber hopes that his own manufactures will be thoroughly tested; and if found unequal to his recommendations, they may be returned to his agents where purchased, and their cost shall be refunded. They are always on sale, in any quantity, by the principal wholesale grocers in the Eastern cities; and by his agents, E. D. Brigham & Co., Boston; James M. Bence & Co., Hartford; Hussey & Murray, New York; George Waite, Albany; Foster Roseworth, Troy, N. Y.; Grant & Son, Philadelphia; Thomas V. Brundage, Baltimore; Howell & Shoemaker, Georgetown, D. C.; Fowler & Co., Alexandria, Va.; Voss Brothers, New Orleans; Kenner, McKee & Co., Cincinnati, O.; Wm. Bagley & Co., Pittsburg, Pa.

WALTER BAKER, Dorchester, Mass Mar. 1st.

Household Words, Music by Blockley, author of Love Note, &c.

Mother Dear, O Pray for Me; written and composed by T. B. Woodbury, author of Be Glad to the Loved ones at Home. For sale by

WILLIAM H. PECK, Feb. 26.

NOTICE.

A number of ladies in Newport, impressed with the importance of assisting those of their sex who are dependent upon their own efforts, and principally upon their needle, for support, have united in forming an "Employment Society" to assist such women with work, at a suitable compensation.

We wish very much the cooperation of all the ladies and gentlemen in town, and shall be pleased to have our list of subscribers increased.

The Society has been taken, next north of W. S. Nichols, 92 Thames street, where we have a room ready made clothing; donations of cloth, and articles useful in such a store, with orders for work of all kinds, will be gratefully received, and carefully attended to, and greatly encourage us in this effort of love and mercy.

Some one will be at the store on Monday to receive donations.

We want a lady to take charge of the store, and act as agent for the Society; any one possessing suitable qualifications, and wishing to devote their time and energy to this labor of benevolence, will please give their names to Mrs. Jackson, corner of Clarke street and Washington squares, by Friday next.

NEW PAPER HANGINGS.

AYER'S CHERRY PECTORAL.

For the Cure of COUGHS, COLDS, BRONCHITIS, WHOOPING-COUGH AND CONSUMPTION.

It is offering to the community this truly celebrated remedy for diseases of the throat and lungs, it is not our wish to trifle with the lives or health of the afflicted, but frankly to lay before them the opinions of distinguished men and some of the evidences of its success, from which they can judge for themselves. We sincerely pledge ourselves to make no wild assertions or false statements of its efficacy, nor will we hold out any hope to suffering humanity which facts will not warrant.

Many proofs are here given, and we solicit an inquiry from the public into all we publish, feeling assured they will find them perfectly reliable, and the medicine worthy their best confidence and patronage.

FROM BENJ. SHILMAN, M. D., L. D., Professor of Chemistry, Mineralogy, &c., Yale College, Member of the L. Soc. Med., Phil. and Soc. Sciences of America and Europe.

"I deem the CHERRY PECTORAL an admirable composition from some of the best articles in the Materia Medica, and a very effective remedy for the class of diseases it is intended to cure."

NEW HAVEN, CT., Nov. 1, 1849.

PROFESSOR CLEVELAND, of Bowdoin College, Maine.

Writes—"I have witnessed the effects of your 'CHERRY PECTORAL' in my own family and that of my friends, and it gives satisfaction to state in its favor that no medicine I have ever known has proved so eminently successful in curing diseases of the throat and lungs."

REV. DR. OSGOOD

Writes—"That he considers 'CHERRY PECTORAL' the best medicine for Pulmonary Affections ever given to the public, and states that 'this singular after being obliged to keep the room four months with a severe fetid odor, accompanied by raising of blood, night sweats, and the attendant symptoms of Consumption, commenced the use of the 'CHERRY PECTORAL,' and had completely recovered."

HEATH PATIENT.

Dr. Ayer—Dear Sir: For two years I was afflicted with a very severe cough, accompanied by spitting of blood and prostrating sweats. By the advice of my attending physician I was induced to use your CHERRY PECTORAL, and continued to do so till I considered myself cured, and ascribe the effect to your preparation.

JAMES RANDALL.

Hampden ss. Springfield, Nov. 27, 1848.

This day appeared the above James Randall, and pronounced the above statement true in every respect.

LORENZO NORTON, Justice.

At the office of the Hon. Geo. Ashmun, Member of Congress.

THE REMEDY THAT CURES.

Dr. Ayer: I have been long afflicted with Asthma which grew yearly worse until last Autumn, it brought on a cough which confined me in my chamber, and began to assume the alarming symptoms of Consumption. I had tried the best advice and the best medicine to no purpose, until I used your CHERRY PECTORAL, which has cured me, and you may well believe me, Gratefully yours,

J. D. PHELPS.

If there is any value in the judgment of the wise, who speak from experience, here is a medicine worthy of the public confidence.

PREPARED BY J. C. AYER, CHEMIST, LOWELL, MASS.

Sold in Newbury by R. R. HAZARD, R. J. TAYLOR and by dealers in Medicine generally. Dec. 15, 6m.

JAN. 15. JONATHAN H. LARK.

TE JEREIORM.

Attention of all well-regulated families, is the Refrain in LIGHT. I have, and always shall advocate a system which will benefit the whole people; and as Reform is the popular watch-word of the day, and it being the beginning of the new year, now is the time to make the trial, and make your yearly contracts for this truly important article.

At the beginning of the year 1850, I made several yearly contracts with storekeepers and families to supply them with Burning Material for the year, whereby they were obliged to cast away the rusty, smacking old lamps, and to substitute lamps for Pine Oil and Burning Fluid; and it is every case the most perfect satisfaction has been given, and what is most flattering to me, and still more creditable to the purchasers, they were the very first customers to pay up their bills on New Year's day, and to renew the contract for the coming year. These facts should be sufficient proof for every true democrat to make the trial, which can be done for a few shillings, by applying to

HAZARD'S FORMIDABLE.

A really excellent article for preserving and whi-

teening the teeth, cleaning and hardening the Gums, purifying and perfuming the breath. It removes tartar and discoloration from the Teeth, without the slightest injury to the enamel, and renders them beautifully white, combining all the excellent qualities of imported preparations, without the objection universally made to them either on account of acidity or gritty, a continued use of which scratches or destroys the Teeth. For sale, wholesale and retail, at

Apothecaries' Hall, by

R. R. HAZARD & CO.

GLOVES AND HOSIERY, Messrs French Bea-

TO THE LADIES.

WASHING, BLEACHING AND CLEANING

FLUID, the greatest labor-saving article yet discovered. By its use, washing machines and boards are entirely dispensed with, and no one quarter the labor is required to do the washing of a family.

The Fluid is a chemical compound of sufficient strength to extract all foreign substances from the cloth, by simply boiling a small quantity of it with the clothes, and without the slightest injury to the most delicate fabric.

The expense is not more than that of the soap ordinarily used, and besides this it will be seen that the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board, and the use of the pounding barrel, is wholly avoided, and an immense saving is thus made. It is emphatically the female's friend.

For warranted to give perfect satisfaction, or the money will be refunded.

For sale by

no. 9. C. G. C. HAZARD, next door north Post Office.

PRENCH WROUGHT COLLARS.—We

have this week received from a Marshall's sale, a lot of Embroidered Collars, which will be sold at half the usual price.

PROFESSOR A. C. BARRY'S

"TRICHOPIOROUS OR MEDICATED COM-

POUND."

For renewing, invigorating, and

beautifying the Hair, removing Scurf, Dandruff, and all affections of the Scalp, and curing

Itchiness on the Skin, Diseases of the Glans, and Integuments, and all other skin affections.

It is a most valuable and reliable preparation, and is used in America, and in the highest

of eminence, prominent citizens of all professions, and ladies who have used it for years in their

breeding rooms and nurseries, admit with one

accord, that for invigorating vigor, gloss, luxuriance, and to the hair, eradicating scurf and dandruff, healing wounds, curing cutaneous, sprains, rashes, &c., and relieving diseases of the skin, the

fluids, and the muscles, it has no equal among the

multitude of compounds advertised in the public

press, or used in private practice. In chancery

as well as efficacy, Barry's Trichopiorous is un-

paralleled. The immense cash sales of the article,

have enabled the inventor to supply it at a small

price, and to supply it in such quantities, that it is

now in the hands of every family, and the price of an

ounce preparation now in use. The scientific

truth of the hair and skin (embracing valuable

directions for the culture and preservation of Na-

ture's choicest ornament,) in which each bottle is

enclosed, is alone worth the money.

The affinity between the medicament which con-

stitutes the skin, and the hair which draws its sus-

tenance from this triple envelope, is very close—

All diseases of the hair originate in the skin of the

head. If the pores of the scalp are clogged, or if

the blood and other fluids do not circulate freely

through the small vessels which feed the roots,

the result, dandruff, shedding of the hair, gray-

ness, itching, and hardness of the ligaments and

entire baldness, as the case may be. Stimulate

the skin to healthy action with the Trichopiorous,

the torpid vessels, recovering their activity,

will annihilate the disease. In all affections of

the skin, and the subcutaneous vessels, and integ-

uments, the process and the effect are the same.

It is upon the skin, the muscular fibres, and the

glands, that the Trichopiorous has its specific ac-

tion, and in all affections and injuries of these or-

gans, it is a sovereign remedy.

Sold in large bottles—price 25 cents—at the

Principal Office, 137 Broadway, New York. For

sale by the principal Merchants and Druggists

throughout the United States and Canada, and

by J. TAYLOR, Newbury, and J. B. B. & S., Providence, R. I. ap. 30 6m

LIGHT! LIGHT!
Handsome, Cheapest, and Best Article
for Light, is
MARSH'S PATENT OIL.

It is a new invention, recently introduced, now very extensively used by the public. Dr. Marsh is constantly receiving, both at home and from abroad, the very highest testimonials of the true merits and great superiority of his Oil, over everything before used for light. Among these we select the following:

MARSH'S PATENT OIL.—This is the name given to a newly invented Oil, for producing light. It is a new invention, recently introduced, now very extensively used by the public.

It has just been introduced to the public by Slazek. Having lived it ourselves, we can speak from experience, and do not hesitate to put it at a high order of merit. It is entirely free from grease or smell while burning, and is not liable to the too common objection of almost all kerosene-burns, that of explosion. It gives a beautiful steady light, is much handsomer than oil, and, *to tell the truth*, is much cheaper. For a slight expense, common glass lamps may be fitted with new tubes, and the oil replaced by this.

It is recommended a trial to those who would ob-
tain a beautiful light.—[Boston Journal.]

GOOD CHANCE FOR A BAKER
 FOR SALE a lot of land containing 101.2
 acres of good best land 250

Quincy, Worcester county, Mass., it is about 3 1/2 miles distance from very thriving farming villages; two lying at the north and the other two south. It is one of the best opportunities for establishing a Bakery, as there being no Bake-house within 10 miles, the acreage of land is in a corner lot containing about 12 acres, there is an application for one, and wishing to reserve half an acre for myself, would sell the remaining 10 1/2 acres at \$1000.

price of four hundred dollars, one half the price in cash, the balance may stand for a sum of years if desired; the lot is well watered on one side, on the other side is a strip of young oak, and some trees of good size, probably about a century in this part. There is a bar chance building on the front, the land is very convenient to fence into pastures, and for mowing for hay and cows; one part is watered by a spring there is also a large number of beech, apple

s upon the lot. Fuel is very low; the best of
 and hard wood is sold there from \$2 to \$3 a
 cord. For further particulars enquire of ELI-
 ARD PARKER, Second street, Newport, or
 post paid application to
